Subject: Model Initiation Ceremony Team

Before school is over, I'd like to discuss the makeup of the team for the October convention model initiation ceremony.

With the loss of Bob Nagel, we should consider who should be Alpha. I am open to suggestions. Perhaps the councils can consider this at their meeting June 5-7; I will not be there, though.

In addition, we have used these people on the team:

Director of the Host Chapter District
President of the Host Chapter
Faculty Advisor or Dean of Engineering of the Host Chapter
Member of the Executive Council
Director of Rituals

Please send me your nomination for each of these team members as soon as you have decided within your category who should be designated. For example, Randolph and Charles should decide who will be the DD on the team and Randolph should send me the names and addresses and telephone numbers and e-mail addresses of the Dean of Eng'g, the Chief Advisor (or alternate advisor), and the Fall President of the host chapter. In addition, if some student has been designated to coordinate the Model Initiation during the Convention, I would like his name and contact info as well.

Please send me this information as soon as possible so I can contact these people before the end of the school semester.

Thanks for your help.
